

Information sheet

For cat repairing it`s necessary that the body of the cat, the thread of lambda probes and the tubes are in good conditions.

The price is always for one cat.

The prices are different and depend also on the situation of material prices on stocket market.

Thats why we have no price lists, request by phone or e-mail (price inquiry)

Attention !

Monolith with 100cpsl is only for sportive cars on racetracks. If you take this one for other cars -the permission for public roads will goes out!!

Payment

There are two possibilities : Payment in advance or cash.

If you like payment in advance, we send an e-mail to your adress with the invoice of repair costs if the cat arrived in our company.

Our bank account is:

Sparkasse Oberlausitz-Niederschlesien
IBAN: DE58850501003000105661
BIC: WELADED1GRL

Transort and repair time

The delivery of the defective kat is made by the customer.

Returns are made by motepa GmbH at the expense of the client.

The cost depend on the size of the package (in average 15,00 - 20,00 € net).

We need 1-2 working days to repair a cat.

Warranty

The warranty for defects is 1 year. Damage caused by errors of the engine, incorrect fuel, that led to overheating of the monolith are excluded from the warranty !

The same applies to gas vehicles.
